EDUCATION

B.S. in Computer Systems Engineering

🏛 Superior School of Computer Sciences (ESCOM, IPN)

📅 2019 – 2023 (expected) 📍 Mexico City

- Top ranked student until current semester (2nd)

Technical Career in Informatics

🏛 Center of Scientific and Technological Studies N°13 (IPN)

📅 2016 – 2019 📍 Mexico City

- Represent my school in a national TV program in maths
GPA: 91 out of 100

EXPERIENCE AND PROJECTS

Mexican Olympiad in informatics

📅 Dec 2017 – Apr 2019

- Second Place in Mexico City (State competition)
- I participated in National Olympiad.
- In high school I taught C/C++, algorithms and problem solving to 40 students, six of them won a state medal. (480 hours)
- Advisory to Informatics Olympiad competitors. (80 hours)

Entrepreneurs and Businessmen Program

📅 Feb 2019 – Dec 2019

Entrepreneurship project in which we developed a company and an innovative product. We developed Air Clock, an air purifier with a bedside lamp and fan clock, cheaper and more efficient than many other products in the market.

- Our company won **second place** in the **International** competition "**Company of the Year**" in Dominican Republic.
- We got **second place** in competition "**International entrepreneurship fair**" in Cocoyoc, Mexico.
- I was **CEO** of "Detecs". I contributed with ideas and work in all areas.

Salinas' Group Hack Challenge

📅 August 2019

At one hackathon that gather experts in all areas (specifically developers) in order to solve problems with technology. Being first semester students, my team and I chose the vertical "**Future of the relationship with customers**", we developed a **chat-bot** that showed the products of a brand to the customer with **VR**.

- We got **5th** place out of 300 and an offer to continue our project and sell it to them. (Waiting for Coronavirus).
