- [GPA](#): 91 out of 100

EXPERIENCE AND PROJECTS

→ **INCOMING FACEBOOK UNIVERSITY ENGINEERING INTERN**

Mexican Olympiad in informatics

📅 Dec 2017 – Apr 2019

- [Second Place](#) in Mexico City (State competition)
- I participated in [National Olympiad](#).
- In high school [I taught C/C++, algorithms and problem solving to 40 students](#), six of them won a state medal. (480 hours)
- [Advisory](#) to Informatics Olympiad competitors. (80 hours)
- Nowadays I am part of [COMI](#) "Mexican Committee in Informatics" where I help to developed problems and solutions.

Entrepreneurs and Businessmen Program

📅 Feb 2019 – Dec 2019

Entrepreneurship project in which we developed a company and an innovative product. We developed [Air Clock](#), an air purifier with a bedside lamp and fan clock, cheaper and more efficient than many other products in the market.

- Our company won [second place](#) in the **International** competition "**Company of the Year**" in Dominican Republic.
- We got [second place](#) in competition "**International entrepreneurship fair**" in Cocoyoc, Mexico.
- I was **CEO** of "Detecs". [I contributed with ideas and work in all areas](#).
- We were [on TV once](#) and [twice in a national newspaper](#)

Salinas' Group Hack Challenge

📅 August 2019

At one hackathon that gather experts in all areas (specifically developers) in order to solve problems with technology. Being first semester students, my team and I chose the vertical "**Future of the relationship with customers**", we developed a **chat-bot** that showed the products of a brand to the customer with **VR**.

- [We got 5th](#) place **out of 300** and an offer to continue our project and sell it to them. (Waiting for Coronavirus).
